

The Website

Is the online resource for everything Drascombe related.

History and specifications of every boat in the range including current production and also earlier models and “one offs”.

A long established discussion forum which now forms a comprehensive archive of everything you could possibly want to know – and if you can’t find what you want, you can just ask!

The forum is also our link with fellow Drascombers all over the world.

Rally and Cruise information, application forms, photo gallery, links page, and much more – see for yourself at:

www.drascombe-association.org.uk

The Boats

Since the original Drascombe Lugger was built in wood in 1966, the range has grown to become a complete range of trailer sailers in wood and GRP from the 4.5M Scaffie to the 7.6M Gig and includes both open and cabin boats. Over 5000 have been built.

They are admired wherever they go.

The

Drascombe

Association

The association for everyone who owns, sails or has an interest in the boats designed by the late J.L. Watkinson and their derivatives.

www.drascombe-association.org.uk

Drascombe Association News

Is the quarterly magazine sent to all members. Each issue includes reports of sailing and other activities, technical articles, members' small ads and adverts from specialist suppliers of Drascombe related goods and services.

Rallies and Cruises

A mainstay of the Association since its earliest days, the rally and cruise programme now covers most of the UK and Ireland every year.

We have close links with our Dutch counterpart the NDKE.

From weekend rallies on inland waters advertised as "Suitable for Smaller Drascombes" to ambitious cruises in far flung waters an Association event is the best way to meet like minded people and learn new tricks and skills.

Join Now!

UK Individual membership is only £15.

Please see website for details of how to join over 1000 members worldwide.
